
REACH Declaration

Preparation Date: 14th June 2022

Broyce Control Ltd is fully aware of the REACH regulation (1907/2006) that came into effect on 1st June 2007. Regarding human health and environment, the general target is to manufacture and to use only safe substances inside the EU.

As far as the duty of Broyce Control Ltd is concerned, we gather declarations from our suppliers to ensure that any substances they provide us with do not contain any Substances of Very High Concern (SVHC's) and that producers at the top of the supply chain will perform the pre-registration/registration of the chemical substances.

In conformity with Article 33 of the REACH regulation, importers and producers undertake to keep them updated about substances that are/will be included in the SVHC list, indicating if SVHC's exceed the quantity of 0.1% by weight. In this case, they will also undertake to give indication for the safe use and disposal of the substance.

The current candidate list (as of 10 June 2022) can be found on the European Chemicals Agency Website:

<http://echa.europa.eu/candidate-list-table>

We therefore declare that all products that are designed, manufactured and sold by Broyce Control and that are used in normal applications, will not intentionally release any substances.

Note:

This Declaration is only valid under the condition that we, the manufacturer, are correctly informed by our suppliers.

Signed by and on behalf of **Broyce Control Ltd**

Signature:

(David Gough)

A handwritten signature in black ink, appearing to be 'D. Gough', is written over a horizontal line.
